

## Nostalgic colors of Koedo Kawagoe

Shimmery black walls along the main street, the hundred year old buildings in a great depth, and the modest sounds of the time of bell will take you to the nostalgic trip to old Edo.

Located in the western Saitama, Little Edo, Kawagoe remains a vivid atmosphere of Japan's former capital, Edo. You will see functional structures on old strage buildings, which have had survived from the big fires attacked the town. After a few hours of walking after lunch, take slower steps for a moment and listen to the sky. Bell of Time tells you that it's time for tea break.

With a beautiful contrast of blue sky and the blackish scenery of the town, Kawagoe welcomes you all to spend relaxing and nostalgic time together.
